Tuesday 9th November 2021

Dear Parents/Carers

Response to COVID-19 outbreak in Year 1

There has been a number of confirmed cases of COVID-19 within the school with a concentration in Year 1.

The school remains open and your child should continue to attend as normal if they remain well. Please be reassured that for most people, coronavirus (COVID-19) will be a mild illness.

We have been in contact with Public Health England today and we will be putting a number of restrictions in place for our Year 1 pupils. This will remain in place until 2 weeks after we are notified of the last positive case within this year group. If further cases continue to emerge within this year group, then restrictions continue until this is the case. We will, of course, keep you updated as to when this bubble situation can change for our Year 1 pupils and whether similar protocols need to be introduced in other year groups.

From tomorrow (10th November 2021):

- Year 1 will operate as a separate bubble in school and will not mix with other pupils.
They will have separate play and lunchtime arrangements.
- We will need to stagger start and finish times for our Year 1 pupils.
At morning drop-off, Year 1 pupils should not enter the yard until 9am and they will be collected by the class teacher at this time.
At the end of the school day, the Year 1 pupils will leave after all other pupils at 3.20pm.
- Our Year 1 pupils will not be able to attend breakfast club or after school clubs until this situation changes.

Unfortunately, COVID-19 remains present in our communities. We will continue to take all necessary steps to reduce the spread and we know that you will work with us to do that. Enhanced cleaning protocols, continual ventilation, handwashing/hand sanitisation and social distancing remains in place throughout school.

If you have any concerns or queries, please contact the school office. Email remains the best option and we always endeavour to reply as soon as possible:

stpd@stpd.bwcet.com

Yours sincerely
Mrs J Burgess

How to stop coronavirus (COVID-19) spreading

There are things you can do to help reduce the risk of you and anyone you live with getting ill with coronavirus (COVID-19):

- get vaccinated – everyone aged 16 and over can [book COVID-19 vaccination appointments](#) now
- wash your hands with soap and water or use hand sanitiser regularly throughout the day
- cover your mouth and nose with a tissue or your sleeve (not your hands) when you cough or sneeze
- put used tissues in the bin immediately and wash your hands afterwards
- meet people outside and avoid crowded areas
- open doors and windows to let in fresh air if meeting people inside
- wear a face covering when it's hard to stay away from other people – particularly indoors or in crowded places
- participate in twice weekly LFD testing following national guidelines (recommended for 11 years and over). We encourage you to log your results here: <https://www.gov.uk/log-test-site-covid19-results>

Further information

Further information is available at nhs.uk/coronavirus

What to do if your child develops symptoms of coronavirus (COVID-19) or tests positive for COVID-19

The most common symptoms of COVID-19 are recent onset of:

- new continuous cough and/or
- high temperature and/or
- a loss of, or change in, normal sense of taste or smell (anosmia)

If your child does develop symptoms, they should get a PCR test and remain at home at least until the result is known. [Get a free PCR test to check if you have coronavirus \(COVID-19\) - GOV.UK \(www.gov.uk\)](https://www.gov.uk). If positive, the child should isolate until at least 10 days after their symptoms appeared.

If you are concerned about your child's symptoms, you can seek advice from NHS 111 at <https://111.nhs.uk/> or by phoning 111.

If your child has a positive test result but does not have symptoms they should stay at home and self-isolate for 10 days from the date the positive test was taken. This isolation period will be extended if they go on to develop symptoms by counting 10 full days from the day following their symptom onset

Instructions for people who live in the same household as someone with COVID-19

From 16 August, [you will not be required to self-isolate if you are a contact of someone who has tested positive for COVID-19](#) and any of the following apply:

- you are fully vaccinated (with an MHRA approved COVID-19 vaccine in the UK, and at least 14 days have passed since you received the vaccine.
- you are below the age of 18 years 6 months
- you have taken part in or are currently part of an approved COVID-19 vaccine trial
- you are not able to get vaccinated for medical reasons

NHS Test and Trace will contact you to let you know that you have been identified as a contact and check whether you are legally required to self-isolate. Even if you do not have symptoms, [you will be advised to have a PCR test as soon as possible](#).

Even if you are vaccinated, you can still be infected with COVID-19 and pass it on to others. If you are identified as a contact of someone with COVID-19 but you are not required to self-isolate, you can help protect others by

- limiting close contact with other people outside your household, especially in enclosed spaces
- wearing a face covering in enclosed spaces and where you are unable to maintain social distancing
- limiting contact with anyone who is clinically extremely vulnerable
- taking part in [regular LFD testing](#)

You should follow this advice while the person in your household with COVID-19 is self-isolating. Those who are [clinically extremely vulnerable](#) should be supported to minimise their contact with other people in the household during this period, regardless of whether others have symptoms or not.

You may be eligible for a Test and Trace Support Payment, for more information please see: www.gov.uk/test-and-trace-support-payment

Help, support, and further information.

To help you comply with the requirement to self-isolate, the County Durham Together Community Hub can provide access to essential supplies, financial support and emotional support as well as other services. Please visit durham.gov.uk/covid19help or call the Community Hub on 03000 260260 for further details.

There is also support available the coronavirus section via durhamlocate.org.uk
